

FIRE FIGHTING - IRRIGATION - WATER TRANSFER - TRASH

1" WATER TRANSFER PUMP

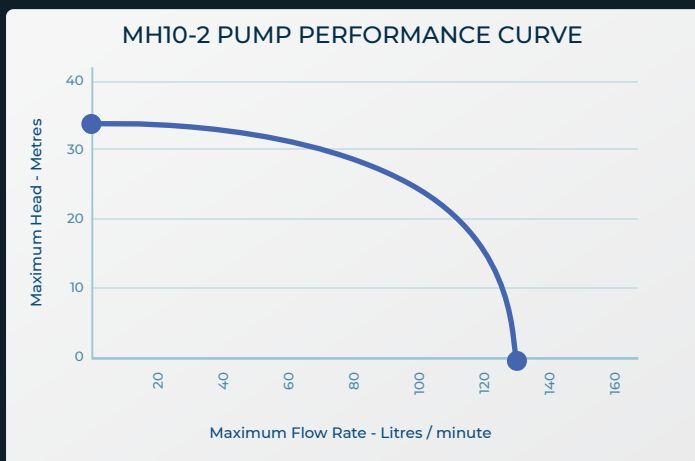

MH10-2

The MH10-2 1" Water Transfer Pump is our lightest pump, weighing only 6.2kg. The reliable Honda GX petrol engine makes sure this little model will be able to handle rigorous use. This model is perfect for water transfer where lower pressures are acceptable.

The MH10-2 is one of the lightest Honda powered water pumps for sale in Australia. It is perfectly suited for water tank filling, dewatering and flood irrigation, any task that requires a lightweight, reliable water pump. This self priming pump is fitted with a Vitriol mechanical seal as a standard supply.

POWERED by
HONDA™

* Specifications are subject to change without notice. Images are for display purposes only. Product may differ from images displayed. Performance data has been measured at the pump. The performance of our Pumps as noted above can be affected by the installation and configuration of the pipe work and distances involved. Example – suction head, static head, friction head. Which all need to be considered when determining the appropriate pump size.
