

FIRE FIGHTING - IRRIGATION - WATER TRANSFER - TRASH

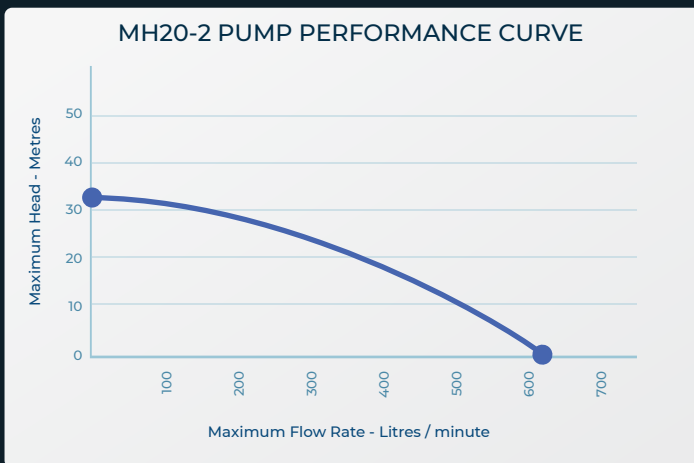

# 2" WATER TRANSFER PUMP

## MH20-2

The MH20-2 is a petrol powered, 2" Water Transfer Pump. It is driven by the legendary reliability and performance of the Honda GX engine. The pump end housing, fittings and impeller are all made from high quality cast-aluminium.

This model weighs only 25 kg, making it extremely convenient to move around a property or in and out of vehicles. Perfect for high flow water transfer, tank filling, dewatering and irrigation.

\* Specifications are subject to change without notice. Images are for display purposes only. Product may differ from images displayed. Performance data has been measured at the pump. The performance of our Pumps as noted above can be affected by the installation and configuration of the pipe work and distances involved. Example – suction head, static head, friction head. Which all need to be considered when determining the appropriate pump size.
