

FIRE FIGHTING - IRRIGATION - WATER TRANSFER - TRASH

3" WATER TRANSFER PUMP

MH30-2

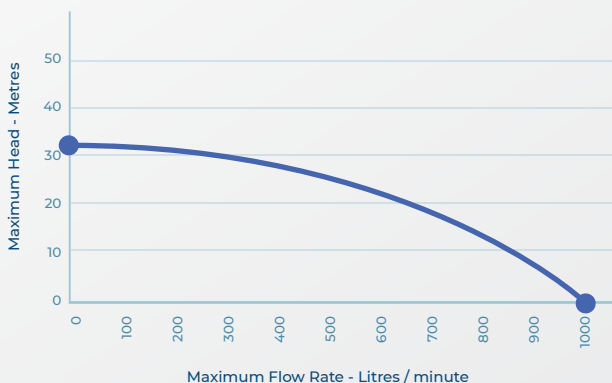

The MH30-2 is a 3" Water Transfer Pump that is perfectly suited to a variety of water moving tasks including tank filling, irrigation and dewatering. It is powered with the legendary reliability of a Honda GX petrol engine. Weighing in at only 27 kg it is easy for a single person to move around a property or in and out of vehicles. But for such a portable package it offers high flow rates that will allow you to tackle big tasks. The MH30-2 is manufactured in Australia from high quality parts including cast-aluminium pump components and a heavy-duty roll frame.

* Specifications are subject to change without notice. Images are for display purposes only. Product may differ from images displayed. Performance data has been measured at the pump. The performance of our Pumps as noted above can be affected by the installation and configuration of the pipe work and distances involved. Example – suction head, static head, friction head. Which all need to be considered when determining the appropriate pump size.
