

Abbott & Ashby®

CASE STUDY

CUSTOMER PROFILE

Mike, a seasoned craftsman with over four decades of experience, has been relying on Abbott & Ashby's bench grinder in his workshop since 1979. With a wealth of experience in woodworking, metalworking, and general maintenance, Mike provides insight into the longevity and reliability of Abbott & Ashby's products.

“I have had the original 8” Abbott & Ashby grinder for 45 years and it has never let me down”

“The only power tool that I can reliably switch on and know it will work, 100% of the time”

INTRODUCING THE NEW 1.5HP PROFESSIONAL BENCH GRINDER

Mike’s impression of the new Abbott & Ashby 1.5HP professional bench grinder is overwhelmingly positive. He loves its enhanced appearance and performance, particularly emphasising the boost in power, which is **“particularly noticeable on the start up as it accelerates up to speed very quickly.”**

The smoother start-up process, facilitated by the improved NVR and E-stop switch, stands out as a welcomed improvement. Additionally, he appreciates the machine’s quiet operation, a feature that sets Abbott & Ashby apart in his workshop.

“Overall, I am very pleased with the new machine. The old machine will live on however, now being passed onto my son ”

CUSTOMER TESTIMONIAL

BRAND OF CHOICE

Mike’s loyalty to Abbott & Ashby stems from his 45 year relationship with his original 8” grinder. He depends on its reliability, emphasising how it has consistently delivered results across a range of tasks:

“From fine finishing timber, drill and chisel sharpening, to grinding pipe ends and steel sections, it has never let me down.”

“The only machine I have that is quiet enough to be operated at night”

A TRUSTED COMPANION IN THE WORKSHOP

Mike’s experience serves as a testament to Abbott & Ashby’s commitment to delivering durable, high-quality and innovative products.

As Mike passes on his original grinder to the next generation, his endorsement reaffirms Abbott & Ashby’s reputation as the ideal choice for metalworking professionals.
