

Caulking Gun

Can you imagine a tradie being onsite, ready to complete a job and his sealant gun fails...

Dispenses 300 ml cartridges of silicone, acrylic, timber adhesive, mastic and caulk, Polyurethane and High Viscosity Materials
Strong, lightweight, metal construction, ensures reliability

Hanging hook enhances safety and convenience as applicator can be hung from the ladder, gutter, belt, etc.

Hardened steel push rod for longer life

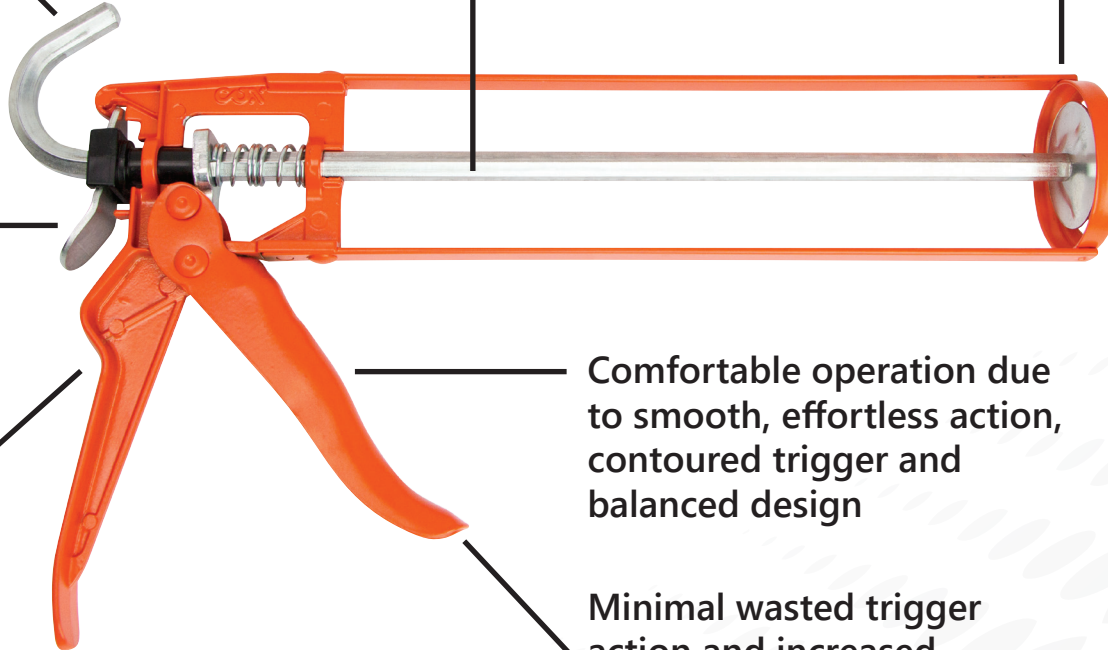

Superior spot welds prevent the end ring "popping off" under high pressure

Dripless function releases pressure from cartridge automatically

Premium "tuff" epoxy powder coating resists corrosion

Comfortable operation due to smooth, effortless action, contoured trigger and balanced design

Minimal wasted trigger action and increased working life

Cheap and inferior Copies can result in operator injury and customer dissatisfaction

Caulking Gun

Svenic Pro Caulking Gun

Market leading sealant applicator for trade professionals.

Dripless function releases pressure and sealant stops flowing

(REFER DIAGRAM)

Minimal wasted trigger action, both catch plate and drive rod are hardened to ensure less squeezes and a longer working life

Stronger construction ensures reliability
